

MINETEC
COMMUNICATIONS

PROJECT MANAGEMENT POLICY

In our pursuit of our corporate vision of being the preferred provider of quality communication services throughout Australia and overseas, we will:

- Apply management techniques and processes that deliver quality outcomes across all facets of our projects
- Improve how we manage by developing performance measures and reacting quickly to our learning
- Appoint personnel to management roles who have the appropriate skills and training to fulfill the roles
- Continually review and upgrade the skills of our personnel through training, mentoring and experience
- Research and implement better management techniques
- Develop a management culture where continual improvement of methods and processes are part of the normal business activity
- Identify and eliminate project risks wherever practical. Where risks cannot be eliminated, a management plan will be established to reduce the risk to an acceptable level
- Create an environment for the involvement of all personnel to achieve our vision
- Benchmark our performance against those of acknowledged industry leaders

Greg Anderson

A handwritten signature in blue ink, appearing to read 'Greg Anderson', written over a white background.
